Profile

My core skill is based on JavaScript. I have built several single-page applications (SPA) and looking at a design I can convert it into an HTML CSS template with pixel-perfect precision. I use bootstrap very often, so the turnaround of my projects is very quick. And always I use git to track my progress and files as well as collaboration. And I'm passionate about learning new technology.

Skills

Expertise: Html5, Css3, JavaScript, ES6, Bootstrap, Grid, Flexbox, Responsive design,

Data visualization, Material Design.

Comfortable: React, Node, Express, SCSS, JQuery, Firebase, Netlify, Heroku, etc.
